Profile

B.Tech [🎓] graduate in Computer Science and Engineering with a strong command of Java, Servlets, and JDBC for backend development. Experienced in writing clean, efficient, and scalable code while following software development best practices. Proficient in debugging and resolving technical issues, implementing database operations, and collaborating with teams using Agile and SDLC methodologies to deliver high-quality software solutions

Skills Showcase:

Programming Languages:

- Java
- Python (basic)
- JavaScript

Backend Technologies:

- Servlets
- JDBC

Version Control:

- Git
- GitHub

Frameworks:

- Spring Framework
- Hibernate

Database Management:

- MySQL
- SQL
- MongoDB (NoSQL)

Methodologies:

- Agile
- Waterfall
- Software Development Life Cycle (SDLC)

Professional Training

Java Full Stack Developer

Mentor Solution

2024 – present
pune, India

- Gained proficiency in Servlets, JDBC, and Spring Boot for backend development.
- Focused on designing scalable and efficient software solutions.

Internshp

Front-end Development Intern

2023/06 – 2023/08

First Find Frame

- Created dynamic user interfaces using React.js and JavaScript.
- Conducted unit testing to ensure software reliability.
- Optimized application performance using debugging tools.

Projects

Employee Management System [🔗]

Personal

- Developed a system to manage employee data using Core Java, SQL, JDBC, and Servlets.
- Enhanced data retrieval efficiency through query optimization.
- Implemented CRUD operations for streamlined performance.

Online Portfolio Website

Personal

- Built a responsive portfolio using modern CSS frameworks.
- Designed for cross-device compatibility and a seamless user experience.

Detecting Phishing Websites Using Machine Learning

- Designed a phishing detection system with Python and Gradient Boosting algorithms.
- Improved prediction accuracy through data analysis and feature selection.

Education

B.tech (Computer Science Engineering)

Shri Shankarprasad Agnihotri College of Engineering.

- CGPA: 8.7/10

2020 – 2024
Wardha, India

Certificates

Front-End Engineer Certificate [🔗]

- Top 5% in HTML5, CSS3, JavaScript, React.js, and Bootstrap.
